

## Filling machines series FLS

### Dosing valve systems:

cone valve  
cock valve  
diaphragm valve  
butterfly valve  
special valve systems  
for different products

### Filling ranges:

FLS 250	25-250 ml	FLS 1500	150-1500 ml
FLS 500	50-500 ml	FLS 2500	250-2500 ml
FLS 1000	100-1000 ml	FLS 5000	500-5000 ml

### Standard features:

Number of filling stations:	2 or 4
Product contacting parts:	stainless steel AISI 316 Ti alternatively: Titanium, Hastelloy, plastics or Ceramics
Machine casing:	stainless steel AISI 304 or plastics
Drive:	compressed air, 6 bar
Sealings:	Perbunan, Viton, PTFE or EPDM, others on request
